Jan. 25, 1960

Spring 1960

We are always glad to have customers come and see our stock. Our location is on the old-Winchester-high-way, about a mile from Tullahoma City limits.

With 46 summer's experience in the nursery business in this county, we just don't believe there is any better stock to be had anywhere. We believe that every item we offer is true. It will be graded strictly first-class of its size; if it isn't first-class it is burned.

Here you will find about all the best NEW KINDS, along with the proven old varieties. After a few frosts ripen our stock and we have the digger run, we can generally load out most any item on very short notice. COME-AND-SEE-IT!

We accept all orders subject to crop and weather conditions,—we will not be responsible for non-filling of orders caused by conditions beyond our control, such as hail, fire, frost, error in count or other causes.

We use the utmost care to keep varieties genuine and true to name, however, should any stock prove untrue to name under which it is sold,—it is agreed by both buyer and seller, that the refund of price paid for such untrue stock, or the replacement of such after proper proof has been supplied, shall be the limit of sellers responsibility.

SHADE TREES

All of our trees are nursery grown from small seedlings. We do not handle wild or collected trees.
